

Dr. David Goldberg

New York, New York
Hackensack / Hillsborough, New Jersey
Boca Raton, Florida

ASK DR. GOLDBERG

WHAT IS UNIQUE ABOUT YOUR OFFICE ENVIRONMENT?

In my Florida practice, plastic surgeon Dr. Jason N. Pozner and I teamed up to establish the Sanctuary Medical Aesthetic Center, which offers a variety of cutting-edge lasers to treat a host of aesthetic conditions. All of my practice locations are equipped with state-of-the-art technologies, supervised by doctors who trained under me, directly.

HOW IMPORTANT IS PATIENT EDUCATION TO YOU?

It's very important. Patients are privy to educational videos and in-depth consultations that review their every dermatologic concern so they can better understand my diagnosis and make wiser decisions.

WHAT PROFESSIONAL LEADERSHIP POSITIONS DO YOU HOLD?

I serve on the board of directors for the American Society for Dermatologic Surgery and the American Academy of Dermatology. I also teach a course on healthcare law at the Fordham University School of Law, because I am also an attorney. My combined degrees have given me a unique insight into the delivery of cosmetic treatments.

Laser logic

Dr. Goldberg has been Director of Laser Research in the department of dermatology at New York's Mount Sinai School of Medicine for the past decade and extends his passion for lasers to patients, offering them a multitude of options, including laser liposuction—which he says enables patients to refine less-than-perfect figures with minimal bruising, downtime, swelling and redness. "We have approximately 70 laser devices to treat skin laxity and a variety of other cosmetic concerns. We provide a variety of lasers because every patient's skin is different." For example, Dr. Goldberg's practice includes technologies to rejuvenate skin, remove unwanted hair, combat acne, treat veins, and sculpt the body via laser-assisted liposuction. "We have our own research lab. I'm inquisitive and always on the quest to be a part of new advances," says Dr. Goldberg, who also now offers patients Zeltiq™ for skin cooling during dermatology procedures.

CASE STUDY

SKIN DEEP

With a zeal for excellence and a sensible approach to skin-care, Dr. Goldberg relied on fractional skin resurfacing for the treatment of this patient's vertical lip lines. "Many times surgery is not the answer," says Dr. Goldberg. "At 62 years of age, this patient now loves the skin she's in, and that makes me very proud to be a doctor."

"dermatology melds my love of science, technology and people"

DR. DAVID GOLDBERG HAS TREATED COSMETIC PATIENTS FOR 25 YEARS. DURING THIS TIME, HE HAS ALSO PERFORMED EXTENSIVE RESEARCH AND TRAINED THOUSANDS OF DOCTORS FROM ALL OVER THE WORLD IN THE USE OF VARIOUS NON-INVASIVE COSMETIC LASERS AND INJECTABLES. "I OFFER PATIENTS MY COMPLETE ASSURANCE OF COSMETIC SKIN-CARE EXCELLENCE." WITH A VAST EXPERIENCE THAT EXTENDS BEYOND TREATING PATIENTS, DR. GOLDBERG CAN ALSO ADD AUTHOR TO HIS PROFESSIONAL ACUMEN, AS HE CO-WROTE BOTH *SECRETS OF GREAT SKIN* AND *LIGHT YEARS YOUNGER*.
